Special Young Professionals Rate (Limited availability)

DIA promotes the participation of young professionals in the annual EuroMeeting by offering a reduced rate for professionals under the age of 32 currently working in health product development, regulation and related fields. Selected applicants will benefit from a reduced rate of €700 (excl. VAT).

The Young Professionals Special Rate is designed to make the EuroMeeting more accessible to talented individuals wanting to improve their professional network and expand their knowledge of the innovation and advancement taking place today.

The Annual DIA EuroMeeting allows and supports active involvement of young professionals by providing a mentoring lunch with leading senior professionals, where attendees can discuss issues and trends with industry leaders in their field. Attendees will have the chance to hear directly from experts and learn what core competencies are needed to succeed and progress in this challenging environment.

Young Professionals will have full access to all the EuroMeeting sessions, and the exhibition floor with 160 exhibiting companies. Individuals will gain a greater understanding of the latest concerns of the pharmaceutical industry and regulatory authorities today and the strategies currently being implemented to effectively address them.

The EuroMeeting provides an invaluable platform for knowledge exchange and networking opportunities for those who want to expand and develop their professional connections. Young Professionals will be able to participate in Q&A sessions throughout the event and share their input and comments. The EuroMeeting offers Young Professionals the chance to collect individual advice and feedback while actively engaging with leading industry professionals who can share their knowledge and expertise on a personal level.

The long-term goal of this programme is to develop sustainable participation of Young Professionals in future DIA meetings, and to facilitate growing involvement of Young Professionals in the programme development for DIA meetings.
