

Pitch Us An Idea!

Fill out the information below and send it to science@diaglobal.org. A member of the DIA team will reach out to you with the next steps.

Briefly describe your proposed idea, including why it is appropriate for DIA and what outcomes it could help drive that support the DIA mission. (Please limit to 300 words.)

Who (with what areas of expertise or skills) would need to engage to realize the success of this proposal (audience, participants, etc.)?

If implemented, how should we measure the impact of this proposal to determine its success?

Terms and Conditions

1. **Disclosure:** Anyone in a position to control the content of a continuing education activity must complete and submit the disclosure form located on the front of this document prior to the presentation, and ensure that the disclosure form is complete and truthful to the best of the presenter's knowledge. Faculty members are required to disclose all relevant financial relationships with any commercial interest, that exist or have existed within the last 12 months. Relevant financial relationships of your spouse or life partner with applicable commercial interests must also be disclosed.

2. **Fair Balance:** Speakers/authors are required to prepare fair and balanced presentations that are objective and scientifically rigorous.

3. **Unlabeled and Unapproved Uses:** Presentations that provide information in whole or in part related to non-FDA approved uses for drug products and/or devices must clearly acknowledge the unlabeled identifications or the investigational nature of their proposed uses to the audience. Speakers/authors who plan to discuss non-FDA approved uses for commercial products and/or devices must advise the DIA and the audience of their intent.

4. **Use of Generic versus Trade Names:** Presenters should use scientific or generic names when referring to products in their lectures or enduring materials. Should it be necessary to use a trade name, then the trade name of all similar products or those within a class should be used.

5. **Validation of Content:** As a faculty member, I have reviewed the proposed content for the previously referenced presentation and find, to the best of my knowledge, the following:

A. This presentation is based on acceptable principles that are generally accepted as valid by the profession.

B. This content is based on conclusions or inferences about the evidence that are accepted in the general medical community as valid and sound.

C. Scientific research referred to in this presentation conforms to generally accepted standards of experimental design, data collection, and analysis.

6. **Source of Evidence:** The source(s) of evidence upon which this presentation has been developed includes one of the following:

A. Agents or treatments that are approved by the FDA.

B. Legislative or legal obligations for physicians to practice medicine that are incorporated in the content.

C. Licensure or certification requirements promulgated by a state licensing authority approved by the Federation of State Medical Boards, or by a medical specialty organization that is a member of the American Board of Medical Specialties.

D. The validity and scientific integrity of the content is verified scientific evidence from a source generally accepted as valid by the profession.
